

...The Bad News: Your Orders Just Increased 1,800%.

Clicking the "BUY" button sends the E-Business Order (A), to the Reseller (B), who funnels it (C), to an Express Messenger (D), who nestles into Headquarters (E), where it's rapidly processed through SnailNet (F). The Big Cheese then gives the order verbal approval (G), telling the Supplier to send materials to the Contract Manufacturer (H), where finished product (I) is given to The Expeditor (J), who speeds it over to the Distributor (K), who drop ships it to the Winds of Change (L), that power it through Logistics (M). It's then sent to the Shipping Mangler (N), who gets it to Fly-by-Night Delivery (O), and eventually to the Buyer (P).
