

## Or you can let Pacific Bell Internet Services do it:

### Announcing the Pacific Bell Internet Services Frame Relay Internet Access Pack:

The hassle-free, easy-to-buy, easy-to-use way to get your business started on the Internet. (And save \$2,000 doing it.)

All kinds of businesses are jumping onto the Internet. Businesses like a small architect's office with a three-person staff . . . A doctor's clinic with 20 employees and a LAN . . . Even a California bank with 100 employees.

These companies know the Internet represents a virtually unlimited business opportunity. So if you're planning to get your business up and running on the Net, Pacific Bell Internet Services is the one and only call you need to make.

Our Frame Relay Internet Access Pack is a complete, hassle-free solution to meet your specific needs. This Access Pack contains everything you'll need to get started, including high-speed dedicated access that's 10 times faster than standard phone lines, all your Cisco equipment, complete integration assistance,

network monitoring, technical support, customer service, and more! Plus, for a limited time, it's specially-priced to save you \$2,000 on reliable Internet access to maximize your communications capabilities.

#### What the Frame Relay Internet Access Pack includes:
