

# Does Your Smile Embarrass You?

Is It Robbing You of the Success You Truly Deserve?

A *Psychology Today* study found that the first thing we notice about people is their smile. In fact, a beautiful, healthy smile is directly proportional to your self-esteem and ultimately, to your success.

**Financial District Dental Care**, in the heart of downtown since 1972, is owned by Dr. Michael Hack, a general and cosmetic dentist. As one of the first in the Bay Area to focus on cosmetic dentistry, he has been brightening smiles and performing customized porcelain veneers for for the past 24 years.

Put yourself in Dr. Hack's experienced hands. He'll show you how affordable and pain-free cosmetic makeovers can be with whitening techniques, preventive care, and his Smile Gallery. Find out how to save time with *one-visit* Cerec crowns and onlays.

*"I was very self-conscious about my smile due to my unsightly front teeth. After Dr. Hack gave me a beautiful new smile, I am now completely confident meeting with clients!"*

– Matt Dunn, San Francisco
