

Intel Create & Share™ Camera Pack

The Easy Way to See and Connect with Family and Friends!

See and hear family and friends across town or around the world.

The enclosed Intel Video Phone with ProShare® technology for the Internet lets you stay in touch with family and friends. Even if you don't know anyone with a video phone, you can locate other Internet video phone users on-line and request a call with them. (The version in this box also upgrades systems with factory-installed Intel Video Phone software to let you make video phone calls just as you would normal telephone calls.)†

Take snapshots in seconds. Make videos in minutes.

The Intel scene recorder lets you capture life's great moments with just a few mouse clicks. You can even make streaming videos that others can view from your personal web page.

Have fun: Enhance and add whimsy to your images.

Use PhotoEnhancer* to easily improve your snapshots, Morph and add special effects with Kai's Power GOO®. Print cards or calendars for family and friends.

It all starts here!

The Intel PC Imaging Camera sits atop your monitor on a convenient swivel base.

Send email postcards that come to life with sight and sound.

With NetCard®, you can personalize an email message with your enhanced snapshots, videos and even your voice. Best of all, the recipient doesn't need a camera pack to view it.

Organize and access all of your images.

The Intel launcher and Intel gallery work together to provide convenient access to both the Intel Create & Share™ software as well as to the snapshots and videos you've made.

It's so easy with the Guided Tour.

This step-by-step visual tour replaces bulky manuals. You'll be clicking, enhancing and communicating in no time!

System Requirements:

- 133 MHz Pentium® processor with MMX™ technology or greater
- Universal Serial Bus (USB) port
- Windows® 95/98/NT
- 16 MB RAM

USB Plugs into USB port

- Choose this if you have:
 - 133 MHz Pentium® Processor with MMX™ technology or greater
 - Universal Serial Bus (USB) port
- Bonus Features
 - Fast and easy installation without opening your PC
 - Also upgrades factory-installed Intel Video Phone software for two way use over both regular phone lines and the Internet

*Other names and brands are the property of their respective owners.
†Use of the enclosed Intel Video Phone software to make video phone calls as you would normal telephone calls requires either (1) factory-installed Intel Video Phone software, or (2) purchase of the PCI Modem version of Intel Create & Share™ Camera Pack. Intel Video Phones are compatible with H.323 and H.324 video phone standards. Actual performance will depend on hardware and software configurations, as well as the quality of the telephone or ISP connection. To send and receive email postcards, an Internet connection and mail package supporting file attachments are required. Some photographs shown are simulations. Actual image quality may vary.
THIS PRODUCT IS COVERED BY A LIMITED WARRANTY.
To see a copy prior to purchase, for additional product information, or to find out if your PC includes factory-installed Intel Video Phone software, ask your retailer or visit the Intel web site at <http://www.intel.com/createshare>.
