† Use of the Intel Video Phone software to make video calls over normal telephone lines requires factory-installed Intel video phone standards for proper operation of USB Port.

** Windows® 95 OSR2 OEM Service Release required for proper operation of USB Port.

Other names and brands are the property of their respective owners.

Intel® Video Phone Software System Requirements:
• 90 MHz Pentium® processor or greater
• Windows® 95 OSR2** or Windows® 98
• 16 MB RAM (Windows 95) or 32 MB RAM (Windows 98)
• 800x600 16-bit (High Color) display
• 5 MB hard disk drive space available
• 4x CD-ROM drive
• Windows sound system compatible sound card with speakers and microphone
• An Internet Service Provider
• 28.8Kbps (or faster) modem required
• Microsoft Internet Explorer* 3.01 or higher (Microsoft Internet Explorer* 4.0 or higher recommended)
• Netscape Navigator* 3.01 or higher (Netscape Communicator* 4.0 or higher recommended)

How to Install the Intel® Video Phone Software:
1. Insert the CD-ROM in your CD-ROM drive.
2. The program will automatically install itself.
3. Follow the Installation Wizard directions on the screen.
4. This could take a few minutes -- please be patient.
5. Print the read instructions.txt file that is part of the installation process for complete instructions on how to use this software.
6. If auto-installation is not detected, choose Start, then Run and type in D:\Setup.

face to face

So why not run out and get the Intel® Create & Share™ Camera Pack today so they can see you, too!

How Does This Software Work?
• The Intel® Video Phone Software you're receiving is easy to use, installs in minutes, and with it, you can see who sent you this software when you talk to them during video phone calls.
• An Intel® PC Camera attached to their PC works like a movie camera to capture their video image. Through your Internet connection, you can see them – live – as you speak to them using this software.

What Can You Do With This Intel® Video Phone Software?
• You can see who you're talking to because the Intel® Video Phone lets you make calls over the Internet?
• It's a great way to connect with family, friends or business associates.
• Call across town or around the world for the cost of your Internet connection.

Why are you receiving this CD?
The friend who sent this wants to talk face-to-face with you by Video Phone.
